Continued. Gradually help your pet get used to the idea that a baby is on the way. "If all these things start changing suddenly, it's going to be very stressful for the pet," says registered veterinary technician Nancy Peterson, cat programs manager for the Humane Society of the United States, in Washington D.C.

Pets and the New Baby: What's Safe, How to Prepare

Next comes baby care and cleaning. Newborns have baby wax in some body parts, like behind the ears, head, in the underarms, and in the creases of the hands, legs, and fingers. I use baby wipes for soft cleaning of all body parts. After that, I apply talcum powder all over his body, and I also use mustard oil for massaging, as it is very good.
