### Catching Breath The Making And

Catching Breath: The Making and Unmaking of Tuberculosis Tuberculosis (TB) is the leading infectious disease cause of death worldwide, yet many persons in industrialized countries think TB is mainly a historical curiosity or a rare disease only affecting a few uniquely vulnerable persons.

### Catching Breath: The Making and Unmaking of Tuberculosis ...

Catching Breath is at least as good as, if not better than, the others. The scope of this book is broader than that of the others, and includes history, diagnosis, treatment and public health. I particularly liked Kathryn Lougheed's good sense of humor especially considering the grim nature of the subject material.

Most cases of shortness of breath are due to heart or lung conditions. Your heart and lungs are involved in transporting oxygen to your tissues and removing carbon dioxide, and problems with either of these processes affect your breathing. Shortness of breath that comes on suddenly (called acute) has a limited number of causes, including:
