3 user reviews on Hammond XM-1 + XMc-1. not rackable, does not fit on one floor but 2 in a rack shelf. can not be edited with a PC (simple but laborious setting, antique)

User reviews: Hammond XM-1 + XMc-1 - Audiofanzine

The XM-1 is a true Hammond-Organ. I am more a piano/synth-guy, than an organ-guy. So the XM-1 is perfect for me. It has a wide range of cool organ-patches. There is chorus, vibrato, percussion, distortion, leslie and reverb. If you combine it with the XMc-1 drawbar-module the easy of use is improved a lot.
