Harley Davidson Sound | Free Sound Clips

Trouble is, when I think of Harley, I think of Hell's Angels, the Harley logo, and the word hog (which Harley also tried to register). But — and I realize this may say negative things about my testosterone level — I don't think of a particular sound, which might explain why Harley withdrew its application to register the engine sound earlier this year.

Did Harley-Davidson patent the sound of its motorcycles ...

This sound is so tied to the brand that Harley-Davidson even applied for a trademark on it at one time. So why does the Harley-Davidson V-Twin have such a unique rhythm? Engine noise is produced by the compressed gases exiting the cylinders through the exhaust valves and then through the exhaust system where they are either muffled or amplified depending on your exhaust system and muffler setup.

What Gives a Harley-Davidson Its Unique Sound - CycleFish.com

Yet there was little question the Honda had intentionally tried to mimic Harley's sound with the single pin crank they used in the Shadow ACE. This change actually cost the engine 10 horsepower ...

Remember When Harley-Davidson Sued Honda For Being Too Harley?

Harley felt they were trying to duplicate the rumble of the V-Twin engine, which many buyers were seeking. On February 1, 1994, the company filed a sound trademark application for the distinctive sound of a Harley-Davidson motorcycle engine: "The mark consists of the exhaust sound of applicant's motorcycles, produced by V-twin, common crankpin motorcycle engines when the goods are in use".

Harley-Davidson Engine Sound Comparison From 1903-2020. By. Malcolm Lee. If you're a dyed in the wool Harley Davidson fan, you would probably argue that all of the Motor Co's engines produce a unique and instantly recognizable exhaust note.

Harley-Davidson Engine Sound From 1903-2020 | Old News Club

More famously, Harley-Davidson attempted to register as a trademark the distinctive "chug" of a Harley-Davidson motorcycle engine. On February 1, 1994, the company filed its application with the following description: "The mark consists of the exhaust sound of applicant's motorcycles, produced by V-twin, common crankpin motorcycle engines when the goods are in use."

Sound trademark - Wikipedia

As you continue to own and grow with your Harley, you'll get used to certain feels and sounds that she makes. When something changes, no matter how small, it may be of some concern, or at least something to make note of. One of the more common things that cause concern among owners is a clattering sound that comes from the engine.

Harley Davidson Touring: Why is My Engine Clattering ...

In 1994 Harley filed a sound trademark application for their distinctive exhaust note. However, nine other competitors filed individual oppositions with Harley's registrability for the trademark. As we all know, Harley has been famous for its distinctive design and sound. In the 1990s Harley was the dominant player in the US market aside from the so-called [...]
