Seasons divide the year into four distinct periods of time named Spring, Summer, Autumn/Fall, and Winter. Each season brings different weather, hours of light, and plant/animal behaviors. The seasons are brought about by the yearly orbit of the earth around the sun and the tilt of the earth's axis. Below are the astronomical dates for the calendar year

According to the lunisolar Hindu calendar, there are six seasons or ritus in a year. Since Vedic times, Hindus across India and South Asia have used this calendar to structure their lives around the seasons of the year. The faithful still use it today for important Hindu festivals and religious occasions.
