In 2011, the German company ZF developed a compact 9-speed 9HP48 transmission specifically for front-wheel-drive Chrysler and land Rover vehicles. Due to a large number of speeds, such a transmission allowed better implementation of the dynamic characteristics of the engine while providing excellent fuel economy.

The 948TE appears in Acura TLX and MDX, Chrysler 200 and Pacifica, Fiat 500X, Honda Pilot, and Jeep Cherokee and Renegade vehicles. Next thing you'll realize is that you don't have the tool necessary to check the fluid level. We're here for the rescue. The 948TE transmission requires Mopar tool P/N 10323A to check the fluid level (figure 1).
